

## ADIX

Built of steel by Astilleros de Mallorca to an Arthur Holgate design, the Yacht was christened Jessica by her original owner and is one of the largest sailing Yachts built since the 1930s. In the early 1990s the Yacht was acquired by a new owner – who renamed her ‘Adix’.

The Yacht was brought originally to the yard in 1991 to undergo a complete program of refit and repair – and continues to be a frequent visitor to our facility.

On her most recent visit, Adix has undergone a major engineering refit linked to her MCA certification and a ten-year Lloyds survey. The work involved re-wiring, re-plumbing, the construction and fitting of two new watertight bulkheads and re-insulating the engine room.

With her distinctive three-masted profile, Adix has become one of the most recognizable of Yachts in the world, a feature of many classic sailing regattas, especially in the Mediterranean.

## Adix technical specification

---

Builder	Astilleros de Mallorca (Spain)
Naval architect	Arthur Holgate/Gerard Dijkstra
Designer	Arthur Holgate/Gerard Dijkstra
Interior	John Munford/Alan Boswell
Construction	Steel
Type	Sailing Yacht – schooner
LOA	64.9m (212.8ft)
Beam	8.7m (28.4ft)
Draft	5.0m (14ft)
Displacement	370 tonnes
Max speed (under power)	10.5 knots
Year of build	1984
Refit completed by Pendennis	1991, 2001
